

SUPPORT AND STORAGE SYSTEM FOR AN ADHESIVE DISPENSING UNIT

Abstract of the Disclosur

A support for an adhesive dispenser includes a base configured to receive the dispenser. A bay formed through a sidewall of the base is sized to receive reference materials, such as user manuals or notebooks, for convenient access by operators of the dispenser. The support further includes
5 a drawer, a slide-out shelf, and a swing-out plate. The drawer, shelf, and plate are coupled to the base for movement between open and closed positions. A coupling member facilitates releasably securing the dispenser to a top surface of the base.
